**An exploration of the way queer identities have evolved over time, including the
initialism LGBTQ+ and its additions and spaces and everything in-between, with
author Andrea Bennett. Access through www.whattheplus.ca**

Although LBGQT2 stands for lesbian, gay, bisexual, transgender, Queer/Questioning and 2-Spirited, the plus (+) that is usually included after the initialism encompasses a list of other identities that fall under the queer umbrella. Our group art exhibition features 17 local artists ranging in age from 12 to 65+, working in various media, focusing on the '+' itself, as it indicates a range or 'gradient', representing the fluid spectrum of human gender and sexuality.
